

The Iron Dome: An Iron-Clad Defense

Ari Sacher made aliyah from the United States in 1982 and studied Electrical Engineering at the Technion-Israel Institute of Technology. Since 1991, Ari has been working at Rafael-Advanced Defense Systems where he worked in the field of Systems Engineering, specializing in the integration of missiles to aircraft. Ari has worked extensively with the USAF, integrating the “Popeye” standoff missile to the Air Combat Command’s B-22 Bomber fleet. Since 2006, Ari has been working in Short Range Missile Defense, where he serves as the Technical Lead on cooperative programs with Raytheon Missile Systems. Ari has spoken at numerous AIPAC events and recently briefed Congress on the Iron Dome.
